PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with 1+ year of experience building web applications with MongoDB, Express.js, React.js, and Node.js. Has built role-based dashboard systems for education, healthcare, and enterprise platforms, working on both sides of the stack: responsive React front ends, RESTful APIs, and JWT authentication. Also integrates AI into development work, including the OpenAI API and AI coding tools.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	React.js, Next.js, Tailwind CSS, Responsive Web Design
Backend:	Node.js, Express.js, RESTful API Development, JWT Authentication and Authorization
Database:	MongoDB, Schema Design, Data Modeling
AI and Automation:	OpenAI API, AI Chatbots, AI Coding Tools
Tools:	Git, GitHub
Soft Skills:	Problem Solving, Team Collaboration, Client Communication

WORK EXPERIENCE

MERN Stack Developer

Sep 2025 – Jul 2026

IT Extension

- Worked as a full stack developer on role-based, multi-dashboard web applications built on the MERN stack.
- Designed MongoDB schemas and built secure RESTful APIs with Node.js and Express.js.
- Implemented JWT-based authentication and authorization for the different user roles.
- Built responsive React.js front ends for each dashboard.
- Worked closely with the product and design teams to get features ready for production.

MERN Stack Developer

Jan 2025 – Mar 2025

7 Sky Solutions

- Built and maintained full stack features across the MERN stack as part of the development team.
- Built responsive React.js interfaces and the Node.js/Express.js backend services behind them.
- Managed MongoDB data models and secured API endpoints with authentication and authorization.
- Worked with teammates to refine the UI/UX and improve application performance.

PROJECTS

Seat Reservation – School Transport and Ride Management Platform

- Built a full stack platform with five role-based dashboards (Admin, Vendor, School, Driver, Parent) for managing school seat bookings and ride coordination.
- Implemented role-specific features for booking management, route assignments, and real-time coordination.

Minimi – Healthcare Coordination Platform

- Developed a healthcare application available on both web and mobile, with role-based dashboards for Super Admin, Hospital, and Nurse users.
- Delivered features for hospital management, patient care coordination, and administrative control on a secure MERN architecture.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Superior University | CGPA: 3.2

CERTIFICATIONS

Full Stack Web Development (MERN Stack) Certification

PNY Trainings, Arfa Tower, Lahore
